

The best kind of wine is that  
which is most pleasant to him  
who drinks it..

*- Pliny, Roman author and philosopher*

When writing the wine list at Pulcinella we wanted to offer a truly Italian experience. Our menu is exclusively and selectively Italian, and we know that each bottle will offer you a unique experience. Every grape that has gone into every bottle we carry has a deep, rooted history in Italy, where their wines are closely intertwined with their past. From the Greeks and Romans who cultivated the vines, to ancient authors like Pliny and Virgil who wrote about these wines. We hope to offer you a story of your own as you experiment with our list and find your most pleasant bottle, for in Italy wine and food are always enjoyed together. Besides, what better pair for our Napolitana Pizza than the wine that hails from the same country? Please raise a glass with us and say "Salute". Welcome to Pulcinella and may we suggest a glass of Prosecco to get you started...
